

Public Meeting Comment Form

November 14, 2007

Alternative One: Sidewalks on both sides but no planter strips.

Do you feel that the bicycle trails will provide an adequate sense of safety for pedestrians?

Additional comments regarding Alternative One:

Alternative Two: Sidewalks on east side and only on west side near intersections, bus stops, and north of NE 170th Street.

Do you feel sidewalks are needed next to Inglewood Golf Club? St. Edward State Park?

Additional comments regarding Alternative Two:

Alternative Three: Sidewalks with planter strips.

Do you feel that planter strips are necessary even if that means the “footprint” of the roadway is wider?

Additional comments regarding Alternative Three:

Raised Center Medians

Should the raised center medians be planted with trees and shrubs?

Should the raised center median be more extensive (more like a traditional boulevard) even if it means right turns only from some residential driveways?

Please provide any additional comments you might have here:

Optional information:

Name: _____

Address: _____

Phone: _____

Email: _____

Thank you for taking the time to complete this form – your comments are important as we evaluate the alternatives for the Juanita Drive and 68th Avenue NE Preliminary Design Report. This form can be handed in at the sign-in table at the public meeting or it can be mailed to:

Juanita Drive Project Team
10230 NE Points Drive, Suite 400
Kirkland, WA 98033
